How to Reach Our Nurseries

THE WESTON NURSERIES are located in the southern part of the town of Weston on Route 30 (four miles from Newton; eight miles from Brookline). Route 30 is the Boston to Framingham route over Commonwealth Avenue. The Main Nurseries are at 85 Winter Street which is the first public road on your left after crossing Wellesley Street.

From the Boston-Worcester Turnpike take the Weston Road at Wellesley for $2\frac{1}{2}$ miles and turn left on Brown Street at the new aqueduct.

Packing Shed

THE spirit of gardening is captivating the American home-front. Its limits are boundless, and happily there will be no restrictions on gardens for food and beauty.

Garden lovers may question the patriotism of purchasing plant materials, in view of governmental regulations concerning travel. The map on the opposite page clearly shows that Weston Nurseries are situated in a central locality to Metropolitan Boston homes, where a minimum of driving and trucking is involved.

We cordially welcome visitors to our fields as we feel that our establishment has much to offer plant lovers. Should a personal visit be impossible, our delivery service or packing department will take prompt action on all telephone and mail orders received.

Plants grown at Weston Nurseries are well tested for hardiness, as the winters are long and severe on our open, unprotected fields. Our two hundred acres of evergreens, trees and shrubs have been transplanted often to develop strong, healthy roots. This is an assurance of continued successful growth in the plantings of our customers.

Weston Nurseries are growers of a complete assortment of plant materials, as listed in this catalogue.

Evergreens

The coniferous evergreens are trees of a great variety of shapes and sizes. Likewise their uses range from the dwarf varieties for use around the house, to use for hedges, windbreaks, and specimen trees suitable for informal and formal groupings. Aside from their value as part of the summer landscape, with variations of texture, density, color, and cool fragrance, evergreens are extremely important and beautiful in enlivening the winter landscape.

EVERGREEN GROUND COVERS

In our rugged New England countryside the home-owner often has a problem with banks or shady places near the house where it is impossible to make a satisfactory lawn. The various evergreen ground covers offer the best solution to this problem. The different low-growing *Junipers* will transform a sunny bank. Although the *Pfitzer Juniper*, *Sargent Juniper* and *Andorra Juniper* are all low and spreading in form, the difference in color and texture of the foliage makes a most attractive picture when they are used in combination. The *Arctostaphylos* or *Bearberry* and *Pachistima* may be used in the same location and the foliage has a bronzy tone in the fall. For shady places *Pachysandra*, *Vinca* with its blue flowers, or *Partridge Berry* or *Wintergreen* with red berries in the fall, make a lovely evergreen carpet. The different varieties of evergreen *Euonymus* are suitable for ground covers, especially the *Euonymus colorata* as it grows rapidly in either sun or shade and has brilliant foliage in autumn and through the winter months.

Broad-Leaved Evergreen Shrubs

This group of evergreen shrubs abounds in varieties that are native in the eastern United States. Some have been introduced from other parts of the world, but they all desire conditions similar to those of our native woods and meadows. It is well to prepare the soil well for them with plenty of leafmold, humus, or peat moss. An acid soil is required for broad-leaved evergreen plantings.

Flowering Crabapples

The flowering crabapple is probably the most colorful and satisfactory of all small ornamental trees. Blooming when very young, they grow quite rapidly and develop into a small tree. Equally important as the profusion of colorful blossoms are the fruits of many colors and sizes, that last far into the winter providing food for many birds.

The Old Farm House

Hybrid Lilacs

We feel we can rightfully pride ourselves on the collection of Hybrid Lilacs we are offering this year. The plants are particularly strong, well-budded, and have been grown with the most modern methods of own-root culture.

We cordially invite visitors to our nurseries at all times, and recommend a visit at lilac time for a very special treat.

Miscellaneous Items

AQUATIC PLANTS

Water Lilies, in all colors, and other aquatic plants are available from May 1st throughout the season. We have been very successful in supplying our local customers with these plants, in tubs or pots, in full bloom throughout the summer.

CUT FLOWERS

Through the summer and fall we can supply cut flowers. Our specialties are Delphiniums, Chrysanthemums both cut and potted, and Gladioli of which we also sell the bulbs in the spring.

FERTILIZER AND PEAT MOSS

We sell fertilizers including Bone Meal, Bovung, Driconure, Superphosphate, Lime, Milorganite, Aluminum Sulphate, and 3-8-7 in 100 lb. bags or smaller quantities, and well-rotted manure in truck loads or bushel bags. We also supply Peat Moss at regular market prices.

GRASS SEED

We carry F. H. Woodruff and Sons Grass Seed in the various types and qualities.

LANDSCAPE SERVICE

We shall be glad to help you with plans and estimates for a perennial border, rose garden, rock garden, a garden pool, or any other type of garden in which you are interested, and are, also, equipped to carry out the work.

Conditions of Sale

IT is to our own interest to see that only good and correctly labeled plants leave the Nursery, but we give no guaranty, express or implied, as to description, growth and success of any stock we sell, for it depends on correct planting, proper soil, weather conditions, and the general care of the plants.

We accept all orders upon the condition that they shall be void should injury befall the stock from frost, fire, hailstorm, or other causes over which we have no control.

Any errors made by us will be gladly rectified if notice is given within ten days after receiving the stock. If any plants are found to be misnamed, we will replace them the next planting season.

We sell five plants of the same variety at the rate of ten; 25 plants at the rate of 100. Specimen plants at special prices.

All parcel post, express or freight charges are paid by the purchaser. On orders packed for shipment there is a small additional charge for packing, at cost.

A certificate of State inspection for freedom from injurious insects or disease on our plants will go with every order.
